This is Our Wholesale Trade Catalog

—and is intended only for those engaged in the commercial growing or selling of bulbous stocks. We do not issue a retail catalog nor do a retail business.

OUR FRONT COVER

WHEN Miss Winifred Walker, the celebrated English floral artist, visited this country the past summer we arranged with her to paint for us a group of bulbous subjects and the Gladiolus painting reproduced on this front cover is the first of a series that we will run.

Miss Walker is the official artist of the Royal Horticultural Society of England and she has been honored in having her paintings hung in some of the most prominent galleries in Europe.

We deem ourselves fortunate in being able to show some of the work of Miss Walker who is recognized as the world's foremost living floral artist.

A Few Simple Instructions on the Planting of Spring Bulbs

Practically the entire group of bulbs, corms or tubers which are planted in the spring for Summer flowering are tender—which means that they must not be exposed to temperatures which are at or closely approach the freezing point.

Weather conditions all over the country are too variable to permit the naming of safe definite planting dates but generally speaking no exposed plantings should be made until the soil has had the benefit of some mild weather. Nothing will be gained in an attempt to anticipate this condition.

We give at right suggestions for the depth of planting and spacing of the leading items:

	Cover Inches	Space Inches
	Deep	Apart
Gladiolus	4 in.	6 in.
Dahlias	4 in.	36 in.
Cannas	3 in.	24 in.
Tuberoses	3 in.	8 in.
Caladium Esculentum	3 in.	24 in.
“ Fancy Leaved	2 in.	10 in.
Montbretias	3 in.	5 in.
Begonias	2 in.	12 in.
Hardy Lilies	5 in.	10 in.

ASK FOR THESE FREE DISPLAY CARDS

We will have available for distribution this spring season a new set of standard size (5½ x 7”) display cards of many of the most popular items offered in this catalog. They are of great help in the resale of these bulbs and we will include them free with every order upon request.

ABOUT PRICES

We sell six bulbs at the dozen rate, 25 at the 100 rate, 250 at the 1000 rate. Depending upon the extent of our stocks and upon market conditions lower prices can invariably be made on large quantities of any item upon request.

NOTE—With the exception of Dahlias, Tritomas, Peonies and Dielytras which are shipped direct from our growing station at Central Park, L. I., N. Y., all stocks offered in this catalog are quoted F.O.B. New York City and are delivered free to any express or railroad station or any steamship dock within this area. The usual small additional charge for any packing in wooden containers will be made.

LIBERAL TERMS TO RESPONSIBLE PARTIES

Our regular terms of sale are as follows: 5% off for cash with order, 2% off for cash within 10 days: final payment to be made within 60 days. These terms still apply in all sales to customers who in turn resell the bulbs.

To the grower and florist, however, we have inaugurated the “GROWERS’ TERMS” of sale. They are as follows: invoices for bulbs are payable from responsible florists and growers 10 days after the normal flowering period of the particular bulbs sold, with final payment on late summer bulbs due July 15th. We, in this way, endeavor to assist the florist and grower during the period that the stocks are in growth.

When applying for credit it will greatly expedite matters if you will give us the names and addresses of those firms (preferably members of the trade) with whom you at present enjoy credit privileges.

WHAT WE GUARANTEE. We guarantee that all bulbs leave our farms and warehouses in good condition, packed in boxes or packages substantially secure and sufficiently strong to insure delivery in good condition with reasonable handling. The risk of transportation is one which the customer must absorb.

WHAT WE DO NOT GUARANTEE. We give no warranty, expressed or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, nor will we be in any way responsible for the crop. If the customer does not accept the bulbs, roots or seeds under these conditions, they must at once be returned to us and any money paid will be promptly refunded.

Positively no claims allowed unless made within five days after the receipt of merchandise.

This catalog cancels all previous quotations.

Gladiolus From Our Long Island Farms

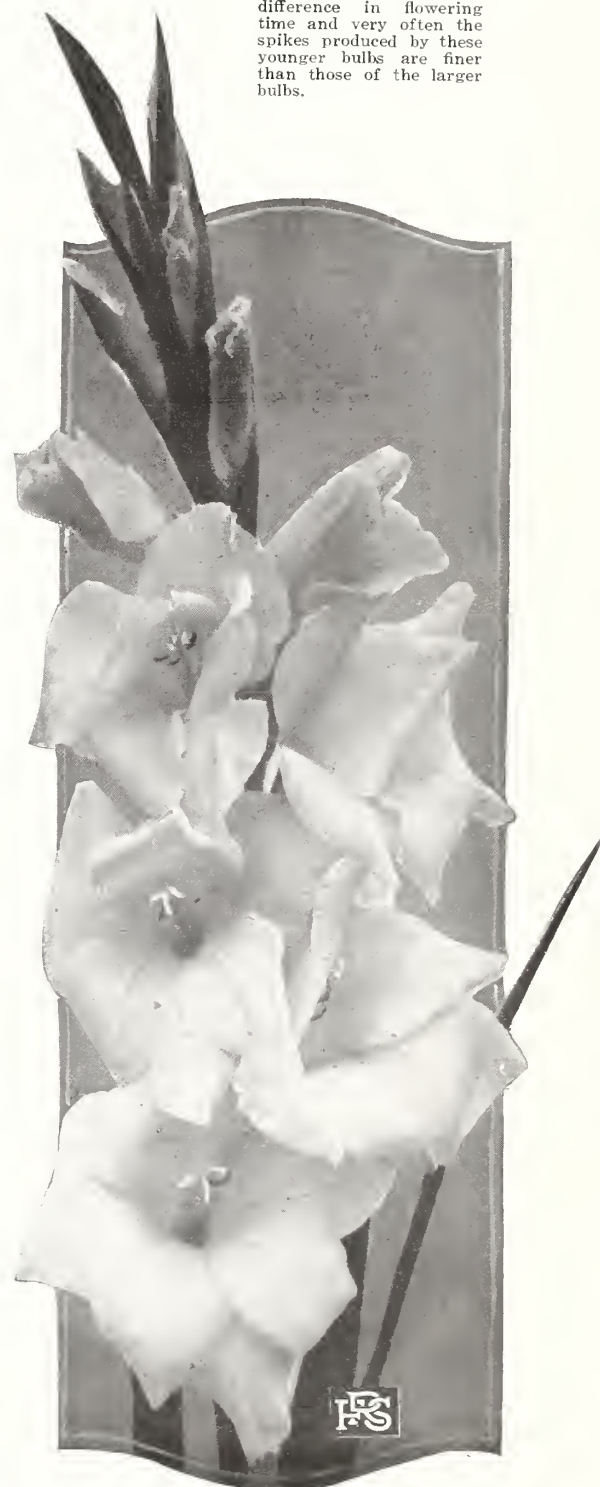

There is a vast difference in the quality of Gladiolus bulbs that is not apparent by an examination of the dry bulbs and one must be familiar with the conditions under which they are grown before determinations can be made of the performing value. Our bulbs—for instance—are all grown from young stock which is a very important factor in the developing of high crown bulbs. We also dip every bulb in Semesan before planting which keeps the stocks healthy and stimulates the growth. Furthermore we do not cut any flowers whatever (except to remove the seeding pods) and this has a twofold advantage in that it permits the new bulb to gain full maturing advantage of the whole plant and enables us to check up and rogue out any bulbs that may be mixed.

Such quality, plus reasonable prices and a well balanced list of varieties of proven merit, accounts for our rapidly increasing Gladiolus business.

ALICE TIPLADY. (Primulinus). Beautiful saffron color and one of the best known and finest of the Primulinus types. Its attractive color is not approached in any other variety. Splendid for forcing or outside planting.....	\$3.00	\$25.00	\$2.40	\$20.00
AMERICA. Soft lavender pink. An old favorite and still popular, although there are many finer kinds of the same color. Stocks are now much depleted and only small quantities available.....	2.75	23.00	2.15	18.00
ANNA EBERIUS. Dark velvety purple and an extra fine variety in this color.....	3.60	30.00	2.90	24.00
BARON JOS. HULOT. Deep violet blue and still the finest of this color.....	5.40	45.00	4.30	36.00
BEAUTY. (Primulinus). Deep salmon pink, slightly frilled. Exceptionally beautiful color.....	4.29	35.00	3.35	28.00
BLERIOT. This variety combines the color combinations of splendid qualities of Halley and Pendleton for it has a salmon pink outline with a beautiful large blotch and splendid form and substance. It promises to be a splendid commercial kind.....	4.80	40.00	3.90	32.00
BYRON L. SMITH. An orchid color Gladiolus with blendings of blue, yellow and white.....	4.80	40.00	3.90	32.00
CAPTAIN BOYNTON. Delicate lavender with deeper blotch on lower petal. Well formed spike on long, strong stem.....	18.00	150.00	14.40	120.00
CATHARINA. A combination of lavender and lilac colors, with violet throat. With the present demand for light blue Gladiolus, "Catharina" is selling well and is very popular.....	7.15	60.00	5.75	48.00
CHICAGO WHITE. A popular early white variety with small lilac blotch on lower petals.....	2.65	22.00	2.15	18.00
CRIMSON GLOW. This variety is considered the finest deep crimson. It is a tall, strong, grower with flowers well placed.....	3.60	30.00	2.90	24.00
DAWN. Salmon pink with lighter shadings. Wine throat. Strong vigorous grower.....	7.80	65.00	6.25	52.00
DEUTSCHLAND. Shell pink, slightly darker than America. A well formed spike showing as many as eight perfect flowers open at the same time. A very fine variety.....	7.15	60.00	5.75	48.00
DR. F. E. BENNETT. This is among the finest of the new reds. Tall, sturdy grower with well arranged flower formation and highly regarded by all who see it. 1st size, per doz., \$4.50; 2nd size, per doz., \$3.50.....	30.00	24.00
DREAM. Large massive blooms of deep salmon red with very showy blotches and nicely ruffled. Extra fine	12.00	100.00	9.60	80.00
DUCHESS OF YORK. The finest of the new blues. We are glad that our larger stock of this fine variety enables us to lower the price considerably this season	9.60	80.00	7.75	64.00

We advocate the extensive use of second size bulbs for outside planting. Their smaller cost generally more than compensates for the small difference in flowering time and very often the spikes produced by these younger bulbs are finer than those of the larger bulbs.

Featuring the Most Popular of All Gladiolus

MRS. FRANK PENDLETON

In spite of the many fine varieties being added every year this Gladiolus still maintains its position as head of the commercial group.

The color is rosy pink with lavender shadings and a pronounced dark carmine blotch. Its form and substance leaves nothing to be desired.

We are glad that our large stock of this fine variety enables us to offer at the following special prices:

1½ in and up.....per 100 \$2.75; per 1,000 \$23.00

VIRGINIA

The Sensational New Red

Very few Gladiolus have attained such popularity in such a short space of time as Virginia. It seemed to fill a demand that had existed for a long time for a real red Gladiolus that would adapt itself equally for forcing or outside growing. The painting on the front cover of this catalog conveys a good idea of its color and form.

We have a very fine stock of early ripened bulbs suitable for early forcing and have other lots available for later planting or for placing in cold storage.

Again last season our Long Island Bulbs, in the hands of prominent, experienced Gladiolus forcers (names on request) have demonstrated their forcing quality by flowering from two to three weeks ahead of bulbs produced in other sections. The flowering percentage—many bulbs threw more than two spikes—was also higher.

Foreign Gladiolus for Importation Under Special Permit

A goodly number of the varieties of commercial or exhibition value being grown in this country today are of European introduction and the list of new varieties constantly being brought out over there contains many that will rank among our very finest as soon as they are established here.

At our Holland Nurseries we are growing a select list included among which are the following which show exceptional merit and we are pleased to offer them, for importation under special permit (which the customer must obtain) at the prices as shown which are F.O.B. Hillegom, Holland.

Leading Commercial Cut Flower Dahlias

"The Queen of Our Late Summer Flowers"

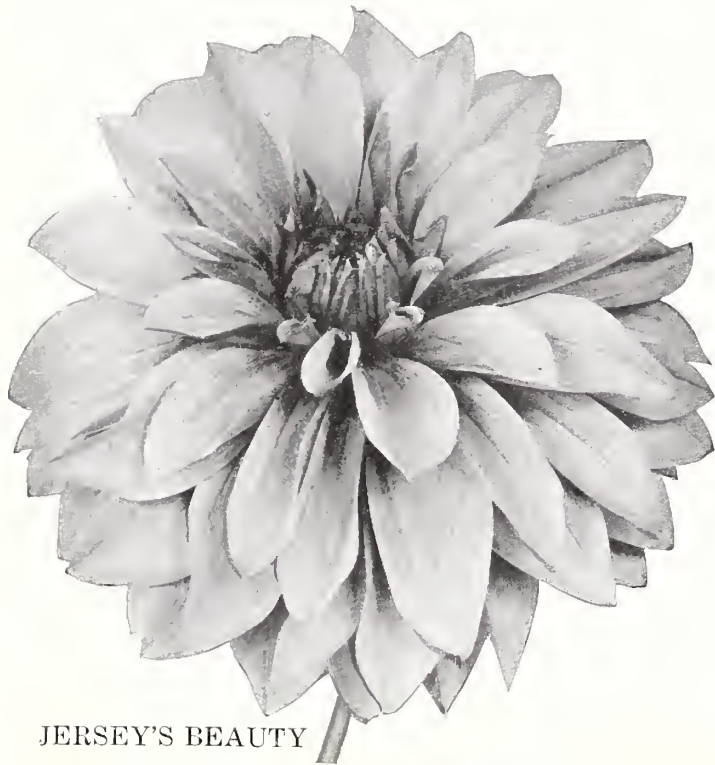

WHILE Dahlias have long been garden favorites it is only within the past few years that they have moved into a position of prominence among our most important seasonal cut flowers. This past season saw them recognized as never before and several times they completely dominated several of our big wholesale markets and attained prices that were never heard of before and which made many chrysanthemum growers sit up and take notice. Dahlias are now definitely established as among our great outdoor bulbous cut flower crops.

The big contributing factor to this new popularity is undoubtedly the fine list of new varieties that has been introduced in recent years, but their distribution out of the hands of a few specialists into many

thousands of commercial cut flower growers all over the country has also aided materially.

Several years ago we undertook the marketing of a select list of established commercial kinds and our large volume enabled us to sell them at lower prices than which they had been generally offered. By rigidly adhering to our policy of limiting the list to those kinds which had actually established themselves in the big markets our sales developed rapidly and now we believe we have the largest Dahlia business in the country.

This year we have added more varieties to the list and they all possess the same exacting qualities. We have lowered prices on many fine ones that are now available in greater quantity.

JERSEY'S BEAUTY

JERSEY'S BEAUTY

This Dahlia maintains its position as head of the list of fine market varieties and last season it again yielded a greater return per plant than any variety available in quantity.

A grand color, a beauty for cutting. A real dahlia for florists. This wonderful flower, introduced in 1923, created a sensation, and still heads a class of its own. It is a large, perfectly formed flower, of a clear erosine pink, held upright on a long wiry stem over a well-branched, bushy plant.

It is a real clear florist's color, a wonderful keeper and good shipper. The awards it has gained all over the country surpass, in number, all past records of Dahlia Novelties.

Strong Divisions per doz., \$5.00; per 100, \$35.00; per 1000, \$300.00.

The Four Outstanding Varieties (All Shown in Colors on Back Cover) Offered at Lower Prices Than Ever Before!

Of the thousands of new Dahlias that have been introduced and offered for sale in the past few years these four kinds have, by practical demonstration over varied growing conditions and locations, shown that they possess unusual merit in combining all of the attractive features demanded of first class commercial Dahlias.

Long strong stems—which are essential for marketing purposes.

Attractive colors—for everybody likes pink, lavender, yellow and orange.

Good keeping qualities—which are lacking in so many other kinds.

Prolific bloomers—flowering in great profusion throughout the season.

Easily grown anywhere—adapting themselves readily to all conditions.

MRS. I. DE VER WARNER

This exquisitely beautiful blossom of soft orchid, or rich rosy mauve, is one of the most admired and best of all cut-flower dahlias that we have grown. This extra large refined, lovely flower with its long stiff stem, is a prolific bloomer and one of the very best for florist's use as well as exhibition purposes. A fitting combination for Jersey's Beauty.

In addition to being an excellent cut flower variety it is one of the finest garden plants that we know of, for it maintains a mass of bloom on an erect, well-shaped plant throughout the entire season.

We have again lowered our price on this fine kind.

Strong Divisions per doz., \$3.50; per 100, \$15.00; per 1000, \$125.00.

Try a Few "Watchung Sunrise"—the New Chrysanthemum Flowered Dahlia

Leading Commercial Cut Flower Dahlias

SAGAMORE

We are fortunate in being able to include this variety in our list of commercial leaders for the supply has been so closely held that we have experienced difficulty in assembling a supply sufficiently large to permit a general offering at our price.

Pages have been written about the wondrous beauty of this dahlia. Its color—a golden yellow suffused with orange—makes it particularly valuable for early fall decorations—and its habit of growth, free flowering qualities, length of stem and keeping qualities leave nothing to be desired.

We offer this fine variety for the first time at popular prices. Strong divisions each \$1.00; doz., \$10.00; 100, \$75.00.

TRENTONIAN

Another grand decorative dahlia to complete the quartet of leaders. It has been a winner everywhere.

The color is that of an "Indian's skin," a wonderful blending of old gold, amber and coppery bronze, the whole forming a flower of marvelous brilliancy, with a central zone of reddish bronze.

The price on this one is also considerably lower than ever offered at before.

Strong divisions, per doz., \$5.00; per 100, \$35.00; per 1000, \$300.00.

TRENTONIAN

WATCHUNG SUNRISE

"The Chrysanthemum Flowered Dahlia"

This is one of the outstanding Dahlias of the past three years. Not only has it been a sensation at all the great Dahlia Shows, as an exhibition and garden flower, but its splendid qualities as a commercial flower have impressed growers all over the country.

In color it is a golden yellow, with a tint of apricot, and rimmed with recurved old-rose petals. Its splendid long rigid stems, holding the large globular flowers upright, are characteristics which must appeal to all Florists. Viewed at a distance a vase of these blooms gives one the impression of huge chrysanthemums. It never shows an "eye" and its petalage is so thickly packed, that they recurve around the stem in a perfect ball, still retaining the full center.

We recommend all florists to lay in a good growing stock now, with a real money-making future before it.

Strong divisions, each \$2.50; per doz., \$27.00 per 100, \$200.00.

FANCY LEAVED CALADIUMS

FANCY LEAVED CALADIUMS

Florida has made wonderful progress in the production of these beautiful foliage plants, and the availability of the bulbs in substantial quantities at most reasonable prices is appreciated by the trade, for it is aware of the many valuable uses to which the plants can be put. While the former scarceness of the stock limited its use practically to conservatory and florist summer window decoration, it can now be used extensively for bedding and window boxes, and there is not a more worthy subject for the purpose. In addition to our own stock in Florida, we are offering the product of several of the leading specialists.

Rynveld's Super Collection of Extra Fancy Varieties

In this extra fancy collection we have combined the cream of the offerings of several prominent specialists and those of you who are familiar with only the ordinary kinds will be amazed at the wonderful colorings of this splendid group. Some of the varieties have beautiful transparent silvery shades, others are rich crimson with indescribable highly colored veined markings, while still others are intensive combination colorings of unparalleled splendor.

We offer this "Super" collection in at least ten named kinds (each labelled separately).

Minimum order—100, \$20.00; 1,000, \$175.00.

Rynveld's Choice Collection of Fine Named Varieties

This collection we also offer in ten beautiful named varieties (each labelled separately). It covers a wide range of color representative of the whole group.

Minimum order—100, \$15.00; 1,000, \$140.00.

Finest Mixture of Many Kinds

Per doz., \$1.75; per 100, \$12.00; per 1000, \$100.00

NOTE—We are prepared to quote a long list of separate named varieties on request.

ARUM CORNUTUM

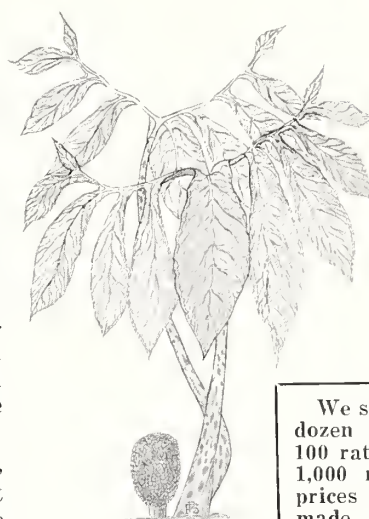

(Monarch of the East)

This unique bulb was becoming very popular when the embargo went into effect and it has taken us several years to develop a sufficient stock in this country to justify a general offer at a reasonable price.

In a dry state it will, in any ordinary living room temperature (see illustration at left), throw up an odd growth of mottled gray foliage and stalk with a semblance of flower. This is accomplished without planting. The same bulb can then be put outdoors when the weather warms up and will produce a beautiful green foliage plant (see illustration at right).

When displayed for sale in the spring months, the bulbs start at once their usual growth right on the counters and such an oddity proves quite an attraction and makes them ready sellers.

Mammoth bulbs—per dozen, \$2.25; per 100, \$15.00; per 1,000, \$140.00.

We sell 6 bulbs at the dozen rate, 25 at the 100 rate and 250 at the 1,000 rate. Special prices can usually be made on large quantities.

TRITOMAS

“Red Hot Poker” or “Flame Flower”

These are very showy decorative plants and are being profitably grown for cut flowers. They seem to do particularly well at our Long Island farm. We offer strong divisions as under

PFITZERI. This is the leading variety. It is a prolific bloomer and the flowers are a beautiful flame red color. Per dozen, \$1.75; per 100, \$12.00.

HYBRIDS. These flower earlier than Pfitzeri and make a glorious showing throughout the whole fall and summer season. The flowers are large and range in color from light orange to deep red. Per dozen, \$1.75; per 100, \$12.00.

TRITOMA PFITZERI

TUBEROUS ROOTED BEGONIAS

With a dependable supply of satisfactory stock now being produced in California, these bulbs are once again assuming their old popularity. In addition to making a very fine pot plant, they are most beautiful for outdoor bedding especially in semi-shaded locations. For an early showing it is desirable to start the bulbs under glass before planting, but they will come along nicely a little later in the season if planted in a dormant state. We offer large first-size bulbs as follows:

Single in separate colors:

	Per Doz.	Per 100	Per 1,000
Pink, Red, Yellow, White, Orange, etc.	\$2.00	\$14.00	120.00

Double in separate colors:

	Per Doz.	Per 100	Per 1,000
Pink, Red, Yellow, White, Orange, etc.	\$2.15	\$15.00	\$130.00

GLOXINIAS

We have secured a nice lot of Gloxinias in sound, well graded bulbs and offer them in separate colors.

Per dozen, \$3.60; per 100, \$25.00; per 1,000, \$225.00.

GLOXINIA

Don't Fail to Make a Planting of the Graceful Montbretias

Glorious Montbretias

We have been paying special attention to these beautiful bulbous plants and have now developed nice stocks in several fine varieties covering the usual range of colors. The flowers attracted much favorable comment wherever shown by us last summer and we are sure that florists will not go wrong in making a planting, for their gracefulness permits of lighter decorations than possible with Gladiolus. Many of the varieties produce three and four flowers to each bulb, thus reducing the cost per flower to a nominal sum. We are considered as American headquarters for Montbretias.

LILY OF THE VALLEY *(For Florists' Forcing)*

LILY OF THE VALLEY—"NEWPORT" BRAND

LILY OF THE VALLEY *for outdoor planting*

This is a special grade that we import especially for the purpose—not seconds, culls or carried over stock—but full size pips of the new crop each of which will throw a large spike. We have developed a nice business in this item and every florist will find that a planting will bring a good early return. It is a splendid item for counter trade.

Per case of 250.....	\$ 4.50
Per case of 500.....	8.00
Per case of 1,000.....	15.00
Per case of 2,500.....	35.00

DIELYTRA SPECTABILIS (BLEEDING HEART)

We have been advocating the more extensive use of this beautiful decorative plant for several years and those of our customers who have availed themselves of our suggestion have profited. It is used extensively as an early spring pot plant and is a fine specialty for St. Valentine's day. The cut sprays are also useful. It is perfectly hardy and makes a splendid showing in the perennial border or when planted with early bulb stocks.

We are the largest growers of this very useful plant and offer large clumps suitable for forcing or outside planting.

Doz., \$5.00; 100, \$35.00; 1,000, \$325.00

Experienced "Lily of the Valley" forcers are far more interested in the quality of the stock they purchase than in the prices they pay. They have established to their satisfaction that a few dollars more in the purchase price comes back to them several times in their sales return when they get the proper quality.

To retain and yearly add to our large Valley importations is conclusive evidence that we are supplying the kind of stock that makes money for our customers.

Our Valley is inspected during the growing season and packed under the supervision of our own men.

LUBECK PIPS (Extra Quality)

This type contains more bells and makes a stronger plant than any other.

Case of 250.....	\$11.00	(We have eliminated cases larger than 1,000 for we find these large pips keep better in these small units.)
Case of 500.....	21.00	
Case of 1,000.....	40.00	

NEWPORT BRAND (Finest Quality)

With the exception of the Lubeck pips these are the finest pips grown in Germany. They represent the pick of the crop from the Wittenberg section as well as those grown on sandy soil in the vicinity of Hamburg.

Case of 250.....	\$10.00	(Cases of 1,000 are the maximum size in this grade also.)
Case of 500.....	19.00	
Case of 1,000.....	\$36.00	

VIERLANDER PIPS (First Quality)

This type is grown in the heavy soils of the Vierlander section of Hamburg. Neither the crowns or the roots are as strong as those produced in other sections but they keep well and adapt themselves to late forcing and for this purpose are extensively used.

Case of 250.....	\$ 8.50	Case of 1,000.....	\$30.00
Case of 500.....	16.00	Case of 2,500.....	70.00

These prices include storage to February 1. For shipments after this date the following additional monthly charges for storage are made:

Per case of 2,500, 60c; per case of 1,000, 30c; per case of 500, 25c; per case of 250, 20c.

LILIUM HENRYI

We have a good stock of this fine Hardy Lily in large size bulbs. Tall stately heads of beautiful orange colored flowers. Flowers in July and August. Should be planted deep for best success. 9/11 in., per doz., \$7.50; per 100, \$50.00; per case of 125 bulbs, \$60.00.

In possibly no class of bulbs is as much interest being shown as in the beautiful hardy lilies, and real efforts are being made in the various producing centers to develop stocks that have been available heretofore only in limited quantities. We are offering some of the most popular kinds and our large volume of trade enables us to make very reasonable prices.

LILIUM REGALE (Myriophyllum)

The beauty of this fine Lily is well known and it stands unequalled among those which will thrive in this country. The trade has long awaited a supply of these bulbs at reasonable prices, and we are now glad to have a stock sufficiently large to enable us to make a general offer.

In this latitude the Regale Lilies bloom in early June and about the same time as *Lilium Candidum*. They have white trumpet flowers with slight pink and other colored stripes on the lower petals and are very fragrant. The bulbs we offer are good flowering size and we suggest that they be left undisturbed for several years as they will then enlarge annually and throw much larger flower spikes.

LILIUM AURATUM

FLORISTS' FORCING LILIES

From Cold Storage

LILIUM GIGANTEUM

This variety is used most extensively by specialists. Demands an even temperature of 50 degrees at start and then 60 degrees after well rooted. Bulbs usually arrive in November.

The supply of Giganteum is very short, especially in the larger sizes.

GENUINE LILIUM ERABU

This Lily has demonstrated that it is well adapted to cold storage conditions for use during the spring and early summer months.

7/9 in., packed 300 to case.....per case \$22.00

(Cold storage charges extra on above Lilies, 25c per case per month from January 1st.)

SPIRAEAS FROM COLD STORAGE

We have placed in cold storage a limited number of our choicest Spiraeas (Astilbe) in the leading forcing kinds. They are for withdrawal in September or October when it is a simple matter to flower them for Xmas.

Gladstone, leading white.
Queen Alexandra, light pink.

Peach Blossom, rose pink.
Princess Mary, deep pink.

Any of the above kinds, per case of 12, \$6.00.

COLORLED CALLA LILIES

ELLIOTTIANA

Prices of these beautiful yellow Callas are considerably cheaper this year. We urge growers to plant them liberally, as they command a good price either in pots or cut. They also make a fine bedding plant.

	Doz.	100	1000

BLACK CALLA

This unique plant has a value as a novelty and is always interesting.

Doz., \$3.00; 100, \$25.00

ALBA MACULATA

This Calla is prized for its beautiful spotted foliage which makes it a desirable pot or bedding plant.

Doz., \$1.70; 100, \$12.00

PINK CALLA

This pretty little Calla is again available in limited quantity. It may be planted outside when frost is over or in the greenhouse at any time.

Each 50c; doz. \$4.50; 100 \$32.00

HYACINTHUS CANDICANS

Commonly known as Summer Hyacinths. Grows to a height of about 3 feet. They are very ornamental for borders. Large Bulbs.

Dozen, \$1.00; 100, \$7.25; 1,000, \$60.00.

MISCELLANEOUS CLIMBING VINES

CINNAMON VINES. Hardy climbing vine, makes dense foliage with small cinnamon scented flowers. Per doz., 50c; per 100, \$3.50; per 1,000, \$30.00.

MADEIRA VINES. Makes a quick, dense growth of ivy-like foliage which is covered in late summer with small spiral trusses of white, sweet scented flowers. Per doz., 50c; per 100, \$3.00; per 1,000, \$25.00.

ANTIGNONON (Coral Vine). In the South, where this climber is frequently seen, it ranks as the most popular. It is a quick and rank grower and makes a beautiful spray of coral pink flowers not unlike a sweet pea. Per doz., \$1.65; per 100, \$12.00; per 1,000, \$110.00.

A HOUSE OF GIGANTEUM

There is a vast difference between Giganteum bulbs as produced in the various sections of Japan and we have for years been making a careful observation of the different stocks. For the past few years the bulbs we have delivered have produced far better than any other stocks that we have seen or that have been reported to us. This year we will have our supply from the same dependable producer.

F. RYNVELD & SONS,
350 Greenwich Street,
New York City, N. Y.

Dear Sir:

We received three cases of lilies from you in December and were not planted till February 15, and were all in for May 30. I want to state that these were the finest lilies I have ever seen, every bulb producing a long stem with 4 to 6 blooms on each one.

I am giving your salesman an order for 25 more cases.

Yours truly,

Wm. A. Leonard Jr.

HYACINTHUS CANDICANS

ANEMONES—St. Brigid and De Caen

(They May Be Planted in the Early Spring)

Anemones are among our prize bulbous flowers and those who have been successful in forcing them have been amply repaid. The flowers are invariably sold quickly at good prices. They provide color effects that are unsurpassable with other subjects. The bulbs bloom over a long period and with successive plantings a good cut can be maintained over the whole season. Our Anemones have been giving splendid results for many years and we have an extra fine lot to offer for this year.

DE CAEN. The single petalled form. All the colors are represented in this type.

ANEMONE ST. BRIGID

CULTURAL DIRECTIONS

Anemones and Ranunculus like cool moisture and leafy loam, and above all, good drainage to prevent stagnation which rots the bulbs. The best potting or benching mixture is made with equal parts of rich well-manured loam, leaf mold, and clean fresh sand. Deep pans are better than pots, but whether grown this way or in benches avoid all chance of sour accumulation of moisture by providing good drainage. The first bulbs should be put in in October and later batches for late Spring bloom. Give a cool shady position at first until roots are formed, then place near the glass with never more than 55 to 60 degrees temperature.

RANUNCULUS

We have started many greenhouse men in the growing of Ranunculus and they are making money on them. The Domestic bulbs are larger than those formerly imported and seem to force better. If your trade can use "something different" we suggest that you try them.

The giant French Ranunculus resemble in form a miniature pompon Dahlia but are as brilliant and varied in coloring as the Poppies and Anemones. In forcing them, give the same treatment as Anemones, but they do not mature quite as early.

The next issue of our Catalog is the complete fall edition, which is mailed out the first week in September. Prior to its issuance, however, we are prepared to quote firm advance prices on the entire list of fall planting bulbs. It is always to the buyers advantage to make these early engagements, for it protects them against possible shortages and advancing prices and assures them of the finest quality stocks. Send us your list for quotations—now.

PEONIES

We are growing a nice block of Peonies on our Long Island farm and the plants look particularly well this season after very favorable growing weather. No flowers are cut from this stock and thus the full strength of the plants is reflected in the roots we send out.

We list below the most important kinds of which we have good quantities but we are also growing many other kinds that will be quoted upon application.
